Gender equality: basics and goals

- AMS Management by objectives

- Annual labour market goals

- Equal Treatment Act
  - Gender, class, ethnicity, origin, religion, sexual orientation

- Labor market law
Strategy: gender mainstreaming

» Top down-management (executives)

» Professional qualifications

» Controlling
  • Participation in professional life
  • Equal opportunities in all professions (horizontal)
  • Equal distribution of leading position (vertical)
  • Reducing gender pay gap
Active labour policy for women

- Encouragement for reentering professional life (“WE”)
- Special fundings and special opportunities for raising professional qualification (“FBZ”)
- Gender budgeting
  - Disproportional financial assistance for women (+4%)
- Women in handcraft and technique (“FiT”)
Why is FiT Program needed?

• Legal requirements

• “Women shall be actively encouraged and supported to enter non-traditional branches to reduce segregation and its negative effects on women (...)” (law)

• Free access to all professions must be guaranteed regardless of gender (gender equality act)

• Facts
  • Women are severely underrepresented in technical professions
  • Women earn 25% less than men (in average)
1. 1,362 women complete training (2022) – all over Austria
2. ~9,600 women have participated in the program
3. 50% migration background
4. 50% between 25 and 45 years
5. 50% & compulsory education level (!!)

**Cost:** € 40 mio/year (€1.3 bn/year – 214000: double)

Labor market success 61.5 % (2022) ~30% in average
FiT Program

- Easy access to the program
  - Women
  - compulsory education
  - language level german B1
  - interest in fit job (list)

- FiT information events

- > 200 professions (out of ~260)

- FiT-professions -list is drawn up annually <40% proportion of women
Support from start to job (individual coaching, support with: Learning, childcare, bureaucracy, illness, money problems, crises of any kind)

- Step 1: Vocational orientation (8 - 12 weeks)
- Step 2: Prequalification in relation to vocational training (up to 12 weeks)
- Step 3: Qualification in non-traditional professions up to 3 years (apprenticeship, skilled worker training, college)

- Cooperation with companies & follow up counselling
FiT Evaluation 2022 – Key points

1. 1000 graduates between 2015 and 2020

2. Long-term labor market success given
   - 65% after 2 years still employment shares

3. 82% of female FiT graduates were or are employed in a craft, technical occupation:
   - 63% in FiT occupation
   - 19% in another technical job

4. Positive effect at the financial level:
   - after 2 years on the fit-job average increase of €507

5. Add positive effects
   - 37% were long-term unemployed
   - 42% had compulsory school level
FiT Evaluation 2022 - development potential

Excluding criteria on women who are ..

- Older
- have an apprenticeship diploma (job placement)
- have previously held a qualified job (job placement)
- have not met requirements or deadlines with the AMS counsellor
- show little willingness to learn
- tell of family burdens
FiT Program - Lessons learned

- Gender bias
- Strategy & goals
- Accompany by women's counseling centers
- Timeline & structure of the program
- Learning settings for women
  - location, women only, remote offers,...
- Digital competences
- Information & promotion
  - partners & staff

FiT in Ihre berufliche Zukunft!
Mit dem Fit-Programm des AMS kommen Frauen #weiter.
