| Safeguard Performance Rating             | Partially Satisfactory  | Date of approval  |   |
| Safeguard Performance Rating - Rationale | No construction works have started yet, only the performance of studies in noise, environmental and social baselines and disaster risk management. The development of these tasks has started by the development of Terms of Reference and are being prepared as planned. The development of these studies has been done in coordination with the executing agency. Proper environmental and social management plans are expected to be implemented when they will start. From this update we learned that there is a potential involuntary resettlement of one farmer and land acquisition of at least one farm adjacent to the airport in North Eleuthera. Therefore, these impacts need to be assessed and a Resettlement, Compensation and/or Livelihood Restoration Plan must be prepared. By which the IDB shared the required guidelines and processes to perform this process in accordance with OP-703 and OP-710.These potential impacts had not yet been identified as such, but according to the PIU, no displacement has yet taken place. The compensation and resettlement plan will be shared with the bank in 2023. |   |   |
