Countries around the world have faced a number of challenges with respect to reaching the MDGs by 2015. Based on the experiences, the development goals will pose new challenges that will demand policy decisions, significant funding and public institutions capable of providing the services required to deliver on the governments’ commitments.

The discussion will underpin the need for modernization processes in both civil and identification registries by focusing on need for effectiveness, sustainable development and good governance.

## DAY 2  SEPTEMBER 24, 2014

### SESSION 4  Improving efficiency in national ID management system through ICT and protection of personal information.

**Organizer:** Ministry of Security and Public Administration (MOSPA)

**Chair:** Jeong Junhyeon, IT and Administrative Law Professor, Dankook University, Korea

**Secretary:** Dongyub Baek, Chief Researcher, National Information Society Agency, Korea

**Panelists:**
- Seong Woo Ji, Professor, School of Public Policy, Sungkyunkwan University Law School, Korea
- Kuk Hwan Jeong, Senior Research Fellow, Korea Information Society Development Institute, Korea
- Edwine Ochieng, Advocacy and Governance Advisor, Plan International, Kenya
- Vibhor Jain, Resource Person, Asian Development Bank
- Maria Jose Viega, Technology Law Professor, University of the Republic of Uruguay

The management of national identification systems is part of the trend of e-governance. However, electronic data is vulnerable to the cyber-attacks. Therefore, a prudent approach is required in building the electronic structures for national ID management systems and the development of fundamental security measures. In this session, participants will exchange experiences and ideas on how to address the issue of privacy, or protection of personal and confidential information as well as being introduced the electronic management systems for national ID systems in several countries.

### 10:00–10:15 COFFEE BREAK

### SESSION 5  Improving Service Delivery through Systematic national ID Management: Experiences and Prospects.

**Organizer:** Ministry of Security and Public Administration (MOSPA)

**Chair:** Cheol H. Oh, Professor, Soongsil University, Korea

**Secretary:** Young-Hwa Kim, Researcher, National Information Society Agency, Korea

**Panelists:**
- Kwang-Sok Oh, Senior Research Fellow, National Information Society Agency, Korea
- Neo Lepang, Director, Department of Civil & National Registration, Botswana
- Muhammad Khalid Khan, Former Director General of Civil Registration and Management System, National Database and Registration Authority, Pakistan
- Luis Díaz, Division Chief, Social Information Division, Ministry of Social Development, Chile
Demographic information is vital to provide effective public services. A systematic management of name, birth date, gender, change of address, collected and recorded accurately can provide the basis for providing good public services tailored to each resident. This is all the more necessary in modern society where the needs for customer-oriented services are universal. This session will review the methodology and practices on how to organize and manage a series of information related to residents.

### 11:45-12:00 COFFEE BREAK

### 12:00-13:30 SESSION 6 Secure Identity System for Efficient Management of Social Transactions

**Organizer:** African Development Bank (AfDB)

**Chair:** Charles L. Lufumpa, Director, Statistics Department

**Secretary:** Gloria Mathenge, UNECA

**Panelists:**
- Jeong-rye Choi, Chief of Disaster Cooperation Division, Ministry of Security and Public Administration, Korea
- Lydia Kandetu, Deputy Permanent Secretary, Department of Civil Registration, Ministry of Home Affairs and Immigration, Namibia
- Vichian Chidchanognarth, Director, Bureau of Registration Administration, Ministry of Interior, Thailand
- María del Carmen Tamargo, Independent Consultant, Argentina

A country with good social policy requires devising systems that ensures inclusiveness. Secure identification systems are key factors for the successful implementation and monitoring of various provisions and services. The session aims to provide the conceptual and operational contexts and implications of identity systems in varied social transactions in a country. The presentations and discussions under this topic are expected to lend important lessons and proposing relevant reform and policy issues.

### 13:30-14:30 LUNCH

### 14:30-16:00 SESSION 7 Civil registries and their importance for vital statistics

**Organizer:** Asian Development Bank (ADB)

**Chair:** Peter Harper, Deputy Australian Statistician

**Secretary:** Kaushal Joshi, Senior Statistician

**Panelists:**
- Carla Abouzahr, Independent Consultant, Public Health Statistics and Policy
- Keiko Osaki-Tomita, Chief of Demographic and Social Statistics Branch, United Nations Statistics Division
- Maletela Tuonane-Nkhasi, Executive Manager, Health and Vital Statistics, Statistics South Africa
- Lisa Grace Bersales, National Statistician and Civil Registrar General, Philippines Statistics Authority
- Yeanok Yoon, Director, Vital Statistics Division, Statistics Korea

Few developing countries currently are equipped to collect, compile, and disseminate accurate, timely, and reliable vital statistics from the civil registration systems due to many reasons including lack of modernization. This session is intended to share
experiences, good practices, case studies and ideas on legal, institutional and coordination mechanisms for collection, compilation and dissemination of vital statistics; use of innovative information and communication technologies (ICT) to improve the accuracy and timeliness in vital statistics; and affordable solutions for transition from paper-based to electronic systems
