$$\frac{5.60\% \text{ times the minimum Authorized Denomination}}{\text{times the Fixed Rate Day Count Fraction divided by the COP Rate}}$$

(and rounding, if necessary, the entire resulting figure to the nearest two decimal places, with USD 0.005 being rounded upwards).

“Bogotá Business Day” means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in Bogotá.

The “COP Rate” means, in respect of a COP Valuation Date, the COP/USD exchange rate, expressed as the amount of COP per one USD:

““COP TRM” (COP02) Rate” means, in respect of a COP Valuation Date, the COP/USD fixing rate for USD, expressed as the amount of COP per one USD, for settlement on the same day reported by the Colombian Financial Superintendency (www.banrep.gov.co) as the “Tasa Representativa del Mercado (TRM)” (also referred to as the “Tasa de Cambio Representativa del Mercado” (TCRM)) as published on the Reuters Screen CO/COL03 Page opposite the caption “TCRM” below the heading “Hoy” at approximately 12:00 noon, Bogotá time, on the first Bogotá Business Day following the relevant COP Valuation Date (or such other page or service as may replace such page for the purposes of displaying such “COP TRM” (COP02) Rate); provided that the “COP TRM” (COP02) Rate found on the website of the Colombian Financial Superintendency shall prevail in case of conflict with the rate appearing on Reuters Screen CO/COL03 Page. If the Reuters Screen CO/COL03 Page no longer reports such rate or is no longer available and has not been replaced by any other page or service, the Calculation Agent shall be entitled to obtain such rate as reported by the Colombian Financial Superintendency from any other screen or information source that it deems appropriate in good faith and in a commercially reasonable manner.

“COP Valuation Date” for any Interest Payment Date or the Maturity Date or date on which an

amount is payable means the fifth Valuation Business Day prior to such date; provided however that if such date is an Unscheduled Holiday, the COP Valuation Date shall be the next following Valuation Business Day; provided further, however, that if the next day is also an Unscheduled Holiday, the COP Rate will be determined by the Calculation Agent on such day in its sole discretion acting in good faith in a commercially reasonable manner having taken into account relevant market practice and by reference to such additional sources as it deems appropriate.

“EMTA COP Indicative Survey Rate (COP03)” means the Colombian Peso/U.S. Dollar specified rate for USD, expressed as the amount of COP per one USD, for settlement on the same day, as published on EMTA’s web site (www.emta.org) at approximately 11:30 a.m., Bogotá time, or as soon thereafter as practicable, on such rate calculation date. The spot rate shall be calculated by EMTA (or a service provider EMTA may select in its sole discretion) pursuant to the EMTA COP indicative survey methodology (which means a methodology, dated as of August 1, 2006, as amended from time to time, for a centralized industry-wide survey of financial institutions that are active participants in the COP/USD markets for the purpose of determining the EMTA COP Indicative Survey Rate).

“Unscheduled Holiday” means a day that is not a Valuation Business Day and the market was not aware of such fact (by means of a public announcement or by reference to other publicly available information) until a time later than 9:00 a.m. local time in Bogotá two Bogotá Business Days prior to the relevant COP Valuation Date.

Redemption Amount (Condition 6(a))” plus accrued and unpaid interest, if any, as determined in accordance with “13. Fixed Interest Rate (Condition 5(I))”; provided, that for purposes of such determination, the “COP Valuation Date” shall be the date that is five Valuation Business Days prior to the date upon which the Notes become due and payable as provided in Condition 9 (Default); provided however that if such date is an Unscheduled Holiday, the COP Valuation Date shall be the next following Valuation Business Day; provided further, however, that if the next day is also an Unscheduled Holiday, the COP Rate will be determined by the Calculation Agent on such day in its sole discretion acting in good faith in a commercially reasonable manner having taken into account relevant market practice and by reference to such additional sources as it deems appropriate.

General Information

Additional Information regarding the Notes

1. Additional Investment Considerations:

The Notes offered by this Pricing Supplement are complex financial instruments and may not be suitable for certain investors. Investors intending to purchase the Notes should consult with their tax and financial advisors to ensure that the intended purchase meets the investment objective before making such purchase.

There are various risks associated with the Notes including, but not limited to, exchange rate risk, price risk and liquidity risk. Investors should consult with their own financial, legal and accounting advisors about the risks associated with an investment in these Notes, the appropriate tools to analyze that investment, and the suitability of the investment in each investor's particular circumstances. Holders of the Notes should also consult with their professional tax advisors regarding tax laws applicable to them.

The Bank will hedge its obligations under the Notes by entering into a swap transaction with an affiliate of the Dealer as swap counterparty. Assuming no change in market conditions or any other relevant factors, the price, if any, at which the Dealer or another purchaser might be willing to purchase Notes in a secondary market transaction is expected to be lower, and could be substantially lower, than the original issue price of the Notes. This is due to a number of factors, including that (i) the potential profit to the secondary market purchaser of the Notes may be incorporated into any offered price and (ii) the cost of funding used to value the Notes in the secondary market is expected to be higher than our actual cost of funding incurred in connection with the issuance of the Notes. In addition, the original issue price of the Notes included, and secondary market prices are likely to exclude, the projected profit that our swap counterparty or its affiliates may realize in connection with this swap. Further, as a result of dealer discounts, mark-ups or other transaction costs, any of which may be significant, the original issue price may differ from values determined by pricing models used by our swap counterparty or other potential purchasers of the Notes in secondary market transactions.

Payment of each Interest Amount and the Redemption Amount will be based on the COP Rate, which is a measure of the rate of exchange between the Colombian Peso and the USD. Currency exchange rates are volatile and will affect the holder's return. In addition, the government of Colombia can from time to time intervene in the foreign exchange market. These interventions or other governmental actions could adversely affect the value of the Notes, as well as the yield (in USD terms) on the Notes and the amount payable at maturity or upon acceleration. Even in the absence of governmental action directly affecting currency exchange rates, political or economic developments in Colombia or elsewhere could lead to significant and sudden changes in the exchange rate between the Colombian Peso and the USD.

The methodologies for determining the COP Rate may result in a Redemption Amount (or Early Redemption Amount, as the case may be) of the Notes, or an Interest Amount on the Notes, being significantly less than anticipated or less than what an alternative methodology for determining the COP Rate would yield.

2. Conflict of Interest Disclosure:

The Issuer may enter into hedging arrangements with a hedging party to hedge the amounts to be paid under the Notes as these fall due. This may involve a hedging party entering into or acquiring a derivative contract referencing an interest rate or currency risk exposure arising from the Notes. The hedging party engages in such hedging arrangements with the Issuer solely on a principal-to-principal and arm's-length basis, and for the benefit of the hedging party and its affiliates. A hedging party will seek to select hedging arrangements which are efficient for it in the context of the tax, regulatory and business environment in which it operates, but will do so without having regard to the interests of Noteholders. A hedging party may also adjust hedging arrangements from time to time but will not always be able to avoid adverse costs, taxes or regulatory changes which affect its hedging arrangements. For the avoidance of doubt, no hedging party is under any obligation to enter into any hedging arrangements and, if any hedging arrangements are entered into, such arrangements will not confer any rights or entitlements on any Noteholder and no Noteholder will have recourse to any such hedging arrangements. The hedging party or its affiliate may be the calculation agent, valuation agent, collateral agent, or other determining party for establishing the amount of payments or deliveries during the term of the hedging arrangement and the Notes. In such capacity, the hedging party's or its affiliate's interests with respect to the Notes and the hedging arrangements may be adverse to the Issuer's and Noteholder's interests. The hedging party or its affiliate does not, in such capacity, act as an agent, fiduciary, financial advisor or in any similar capacity on behalf of the Issuer or any Noteholder. The hedging party and its affiliate shall have no duty or obligation, whatsoever, to any Noteholder and no Noteholder shall have any right, claim or recourse to the hedging party or its affiliate in connection such services. For the avoidance of doubt, neither the hedging party nor its affiliate shall be liable to any Noteholder for any action that it takes or omits to take or any determination or calculation that it makes or omits.
