

NOTICE OF CONTRACT AWARD

RE: Selection #: RG-T2993-P002
Selection Method: Full competitive
Sector: IFD/CMF
Country: Regional
Financing ATN #: ATN/KK-16700-RG

Description of service: Carry out a market analysis in LAC for the financing of digital projects, identifying the main characteristics of potential actors in supply and demand (including public and private entities, as well as public-private partnerships). The analysis should be complemented by examples of actual transactions in the world, if available. Based on the previous market analysis, propose a strategy for the financing of digital projects, including potential structures (banking, capital markets and others), as well as the main terms and conditions that would be required to make them feasible. Among these options, a precise explanation of public policy interventions should be carefully outlined. Propose potential IDB Group interventions to facilitate the financing strategy, including sovereign and non-sovereign solutions in loans, guarantees, and technical assistance. Test the interest and applicability of proposed financing structures in two LAC countries with relevant public and private parties and determine which financing structures can be viable for these countries.

The aforementioned selection process has been completed and the contract has been awarded as follows:
