Borrower/Bid No:

Operational Consulting Services – Bank Executed Operation (BEO)

Name: Strengthening the ICT Border Connectivity in Borders in Central-America

Description: The main objective of this consultancy is to support the Central American region to strengthen the ICT border connectivity in borders by promptly sharing restricted passenger information between countries to contribute to the safety of the people and stability of the society through the effective control of restricted passengers, understanding differentials of infrastructure, equipment, IT security, software, and procedures required in order to secure the border passenger information in advance, and designing a detailed action plan to improve connectivity of border control agencies.

Deadline: 8 May 2020
