Loan N°./Financing:

Project: Energy Performance Contracting (EPC) Projects

Title: Project Awareness Campaign

Borrower/Bid No:

Energy Performance Contracting (EPC) Projects
under the Energy Management and Efficiency Programme (EMEP)

Project Awareness Campaign

The Government of Jamaica (GOJ) has received financing from the Inter-American Development Bank (IDB), Japan International Cooperation Agency (JICA) and European Union Caribbean Investment Facility (EU-CIF). This project is part of the Energy Management and Efficiency Programme (EMEP) managed by the Ministry of Science, Energy and Technology (MSET).

The GOJ is embarking on a project to implement energy efficiency and renewable energy measures in public buildings throughout Jamaica. The anticipated budget for the project is approximately USD 25.6 million for the deep retrofits of 30 government facilities, which include 12 hospitals, 10 schools, and 8 public buildings, which have a combined annual energy cost of USD 6.4 million. The first package of USD 9.3 million will utilize a cost-plus approach. The second package of USD 16.3 million will be implemented under an Energy Performance Contracting (EPC) approach using a guaranteed savings scheme. Under an EPC arrangement, an external organisation (ESCO) implements a project to deliver energy efficiency or a renewable energy project, and uses the stream of income from the cost savings or the renewable energy produced, to repay the costs of the project including the costs of the investment.

Interested parties are invited to view the information on the procurement opportunities provided on the MSET's website at https://www.mset.gov.jm/project-executing-unit/.

Official Bid Information:

Information on the procurement opportunities will be provided on the GOJ procurement website at http://www.gojep.gov.jm, UNDB website https://devbusiness.un.org/ and IDB website: https://projectprocurement.iadb.org/en/procurement-notices.
