Abstract: MARKET STUDY ON REGIONAL PAYMENTS SYSTEMS IN CENTRAL AMERICA AND THE DOMINICAN REPUBLIC

ATN/MT-8544-RG

This notice appears in *UN Development Business Online* only and not in the printed version. Although this notice is assigned to a specific print issue, the official publication date of this notice is considered the date that it is posted online.

The Central American Monetary Board is asking for expression of interest of consulting firms, regarding a market study on regional payments systems in Central America and the Dominican Republic. The firm must have at least 10 years of experience in financial markets research, with special emphasis on banking/payments operations in Central America and the Dominican Republic. Other requisites are: Must have a regional vision, and understand a financial integration scope; full knowledge of financial markets and payment systems; excellent command of cross-border payments; solid expertise in information systems, and implementation of technological solutions; experience in at least three payments systems development; and good knowledge of the Central American and Dominican Republic financial markets.

The study must develop the market characteristics, types of services, costs and prices, and propose business solutions based upon a regional payments design.

The study is financed by the IDB, project ATN/MT-8544-RG.

EOI shall be received by Enrique Garcia Dubon at the e-mail below. Letter must be sent to the address below.
