Dear Requester,

We would like to thank you for the recent call with the MICI team. After reviewing your claims (Request), and as mentioned during the call, we have found there is necessary information missing, which is needed to register your claim.

For this reason, this is to notify we are granting **10 business days, starting today (the extension is due on August 2\textsuperscript{nd}, 2022)**, to resend your Request with the required information

With the intention of assisting you in preparing the claim, we are sending you the following information:

1. Table with requirements and details of the information we already have and the information we need. Please note, this seeks to assist in the preparation of the Request on the topic to be included.

2. Model Claim Letter that you can use as a template to prepare your own letter.

You can also find information in our website ([www.iadb.org/mici](http://www.iadb.org/mici)) and examples of other cases in our Public Registry, if this helps you solving doubts.

In the event that MICI does not receive the required information before August 2, 2022, the administrative process would be concluded. **However, this does not prevent you from resubmitting a new Request once the missing information is gathered.**

I reiterate that we are at your disposal to answer any questions.

Best regards,
