Improving the Lives of Persons with
Disabilities."

Dear Minister Shaw:

This letter of agreement (the "Agreement") between the Government of Jamaica (the "Beneficiary") and the Inter-American Development Bank acting in its capacity as Administrator of the Japan Special Fund (the "Bank"), which we are submitting for your consideration, is to formalize the terms of a grant of a nonreimbursable technical cooperation to the Beneficiary, up to the amount of five hundred and seventy two thousand dollars of the United States of America (US\$572,000), (the "Contribution"), which shall be chargeable to the resources of the Japan Special Fund, to finance the contracting of consulting services and the procurement of goods necessary for the execution of a technical cooperation program to support improving the lives of persons with disabilities (the "Program"), which is set forth in the Annex of this Agreement. Unless otherwise stated in this Agreement, the term "dollars" shall hereinafter refer to the currency of legal tender in the United States of America.

This Agreement is entered into pursuant to the letter agreement signed between the Government of Japan and the Bank, dated April 26, 1988, and amendments.

The Bank and the Beneficiary agree upon the following:

First. Components of the Agreement. This Agreement consists of this part one, referred to as the "Special Conditions"; part two, referred to as the "General Conditions"; and the Annex, which are attached hereto. The prevalence between the above-mentioned sections and the Annex is established in Article 1 of the General Conditions.

Second. Executing Agency. The Executing Agency of this Program shall be the Ministry of Labour and Social Security, through the Jamaica Council for Persons with Disability, hereinafter referred to as either the "Executing Agency", or "MLSS". The Beneficiary certifies the financial and legal capacity of the Executing Agency to function as such, and undertakes that all the obligations that result from this Agreement will be duly fulfilled by the Executing Agency.

Third. Conditions Prior to First Disbursement. The first disbursement of the Contribution shall be subject to the fulfillment, to the satisfaction of the Bank, of the conditions set forth in Article 2 of the General Conditions, and the following condition: evidence that the Executing Agency has established the Technical Steering Committee (TSC).

Fourth. Reimbursement of Expenditures Chargeable to the Contribution. With the consent of the Bank, resources of the Contribution may be used to reimburse expenditures incurred or to finance those that may be incurred in the Program on or after December 11, 2009 and up to the date of this Agreement, provided that requirements substantially similar to those set forth in this Agreement have been fulfilled.

Fifth. Revolving Fund. The amount of the Revolving Fund for the Program shall be twenty percent (20%) of the total amount of the Contribution.

Sixth. Deadlines. (a) The period for execution of the Program shall be thirty (30) months, from the effective date of this Agreement.

(b) The period for the last disbursement of the resources of the Contribution shall be thirty six (36) months from the effective date of this Agreement, which shall include the period required for the payment of independent auditors referred to in Article 11(b) of the General Conditions. Any part of the Contribution which has not been utilized within this period shall be canceled.

(c) The aforementioned deadlines and any others that may be stipulated in this Agreement may be extended, when duly justified, with the written consent of the Bank.

Seventh. Total Cost of the Program and Additional Resources. (a) The Beneficiary, through the Executing Agency, undertakes to make timely provision of the resources required, in addition to the Contribution, for the complete and uninterrupted execution of the Program, the "Counterpart Resources." The total Counterpart Resources required is estimated to be the equivalent of one hundred and sixty thousand eight hundred dollars (US\$160,800), to make up the sum equivalent to seven hundred and thirty two thousand eight hundred dollars (US\$732,800) which is estimated to be the total cost of the Program. These estimates do not reduce the obligation of the Beneficiary to provide any additional resources required to complete the Program.

(b) The Counterpart Resources, which will be provided in-kind, shall be used to finance the cost categories, which are chargeable to it, as established in the Program's budget set forth in the Annex.

Eighth. Recognition of Expenses Chargeable to the Counterpart Resources. The Bank may recognize as part of the local contribution expenditures incurred or which may be incurred in the Program on or after December 11, 2009, and up to the date of this Agreement, provided that requirements substantially similar to those set forth in this Agreement have been fulfilled.

Ninth. Currencies for Disbursements and Use of the Contribution. The Bank shall disburse the Contribution in dollars. The Bank may convert these convertible currencies

into other currencies, including the local currency by applying the exchange rate indicated in Article 7 of the General Conditions.

Tenth. Acquisition of Goods and Related Services and Selection and Contracting of Consulting Services. The acquisition of goods and related services and the selection and contracting of consulting services will be carried out by the Executing Agency in accordance with the provisions set forth in Document GN-2349-7 (“Policies for the Procurement of Works and Goods Financed by the Inter-American Development Bank”), and in Document GN-2350-7 (“Policies for the Selection and Contracting of Consultants Financed by the Inter-American Development Bank”) dated July 2006, as well as in accordance with the Procurement Plan referred to in paragraph Eleventh of these Special Conditions.

(b) The Executing Agency agrees that the goods acquired with the resources of the Contribution shall be duly identified with labels or marks, which specify that these goods and equipment have been financed with resources from the Japan Special Fund.

Eleventh. Procurement Plan. Before starting any competitive bidding process or any request for proposals for the acquisition of goods and services (different from consulting services) and for the contracting of consulting services, the Executing Agency shall prepare and furnish to the Bank for its approval, a Procurement Plan acceptable to the Bank setting forth the particular contracts for consulting services required to carry out the Program, including the estimated cost of each contract, and the proposed methods for acquisition of goods and selection of consultants’ services, in accordance with paragraph 1 of Appendixes 1 of Documents GN-2349-7 and GN-2350-7. This Procurement Plan shall be reviewed by the parties every six (6) months during the execution of the Program, and each updated version shall be submitted for the Bank’s approval. The Executing Agency shall implement the Procurement Plan in the manner in which it has been approved by the Bank.

Twelfth. Review by the Bank. Unless the Bank agrees otherwise in writing, each contract for the acquisition of goods and for the contracting of consulting services shall be subject to an ex ante review, in accordance with the procedures established in paragraphs 2 and 3 of Appendixes 1 of Documents GN-2349-7 and GN-2350-7.

Thirteenth. Progress Reports and evaluation. (a) The Bank will supervise the Program implementation and oversee the execution of the Program’s schedules, and manage the risks identified during Program preparation and those developed during its execution. After fifty percent (50%) of the resources of the Contribution has been disbursed or fifteen (15) months of execution have elapsed, whichever occurs first, the Executing Agency and members of the Technical Steering Committee, with the participation of the Bank, will hold a formal review meeting to evaluate implementation progress and overall achievement of the Program’s results.

(b) The Bank will hire the services of an independent consultant to carry out a final evaluation of the Program, once ninety five percent (95%) of the resources of the Contribution has been disbursed. The evaluation will produce a report that analyses effectiveness of the Program, fulfillment of results, as well as efficiency of implementation of activities. Obstacles to successful implementation and lessons learned as well as a series of recommendations will also form part of the final evaluation report.

(c) The Executing Agency undertakes to submit to the Bank quarterly progress reports that outline status of implementation of activities and associated use of budgetary resources, risks and planned actions to mitigate the risks. Also, the Executing Agency undertakes to present to the satisfaction of the Bank, a final report within the 30 days following the end of the execution period of the Program that includes the lessons learned.

(d) The Executing Agency undertakes to oversee the work to be performed by the consultants to be hired for the Program in order to ensure that all activities are conducted within the timeframe agreed upon between the Executing Agency and the Bank, and with the quality of work required. Technical support will be provided by the TSC which will have an oversight responsibility.

In accordance with the Bank's Disclosure of Information Policy, the Bank will make the text of this Agreement available to the public once it has been signed and has entered into effect, with the sole exception of that information which the Beneficiary, through the Executing Agency, has specifically identified as confidential, sensitive or adverse to relations with the Bank in the manner indicated in this paragraph.

Any notice, request, or communication from one party to another by virtue of this Agreement shall be made in writing and shall be considered to have been made when the relevant documents are delivered to the addressee, unless the parties otherwise agree in writing. (b) At the request of the Beneficiary, through the Executing Agency, and provided that the requirements set forth in paragraph (a) above, in Article 2 and in the Special Conditions have been satisfied, the Bank may establish a revolving fund with the Contribution resources, which the Beneficiary, through the Executing Agency, shall utilize to cover eligible Program expenses charged against the Contribution. The Beneficiary, through the Executing Agency, shall inform the Bank about the status of the revolving fund within a period of sixty (60) days from the closing date of each semester.

Under these circumstances, the Bank shall notify the Executing Agency in writing so that it may present its points of view, and after thirty (30) days from the date of the Bank's notice, it may suspend the disbursement or cancel the undisbursed portion of the Contribution.

(b) Pursuant to paragraph (a) above, the parties agree that upon the occurrence of institutional or organizational changes within the Executing Agency, which, in the Bank's opinion, might affect the timely execution of the Program's objectives, the Bank shall review and evaluate the likely attainment of the objectives and may at its discretion, suspend, condition or cancel the disbursements of the Contribution.

THE ANNEX

THE PROGRAM

Support to Improving the Lives of Persons with Disabilities

I. Objective

- 1.01** The general objective of this Program is to improve the framework for the Ministry of Labor and Social Security (MLSS) to advance social protection policies that would impact on the welfare of Persons with Disabilities (PWD) in keeping with its commitment to the United Nations Convention on the Rights of Persons with Disabilities.
- 1.02** The objective of the Program is to provide specific assistance to upgrade existing data systems that would define and profile the disabled population in Jamaica and enhance mechanisms to improve targeting of PWD for social benefits and programs.

II. Description

- 2.01** In order to achieve the above-mentioned objectives, the Program will finance the implementation of the following components:

Component 1- Building Capacity to Register Persons with Disabilities

- 2.02** The objective of this component will be to strengthen the capacity of the Jamaica Council for Persons with Disability (JCPD) department to identify and target PWD for social benefits (rehabilitative benefits) on a continuous basis through the establishment of a data base that profiles individuals with disability. This component will also enhance the existing framework of the Government to formulate policies and programs for persons with disabilities.
- 2.03** In order to achieve the objective of this component the Program Executing Unit (PEU) will embark on a country wide registration of PWD in Jamaica, using the guidelines contained in the UN Convention on the Rights of the Disabled to define this category of the population. Given the size of the budget, the registration process will first exhaust secondary sources of data and then capture the remaining population through primary collection using the 2001 census data as a baseline. A consulting firm will be recruited to collect the data using a sound methodology approved by MLSS and the Bank, design and develop the data base, produce a comprehensive report that analyses the data. The firm will also train staff in the use of the system and develop procedure manual for ongoing data collection and analysis.

- 2.04** Expected product. Fully functioning computerized database updated with an accurate profile of PWD and staff trained to manage the data base. A second product will be a report to be published on the web which analyses the socio-economic, demographic and other characteristics of the disabled population.

Component 2 - Public education and promotion

- 2.05** The objective of this component is to design and implement a public information and education strategy that would encourage PWDs to register and educate the general public of the exercise.
- 2.06** Relevant public information on the registration exercise will be crucial to the success of Component 1. An information strategy will be developed that educates communities on the types of disabilities and the rights of PWD and will be geared towards getting community support in identifying disabled members in their communities. The second element of the strategy will focus on educating and encouraging the target group on the criteria for registration and also encouraging them to overcome any reluctance due to a perceived stigma.
- 2.07** The component will finance a consultant to develop and implement the public education and promotion strategy.
- 2.08** Expected product. Well articulated public information strategy with implementation plan executed.

Component 3 - Improve targeting of PWD

- 2.09** The objective of this component is to review systems and mechanisms in place to identify PWD in need of social assistance and inform a comprehensive review of the Beneficiary Information System (BIS).
- 2.10** In order to achieve the objective of this component, two studies will be conducted. The first will examine the dynamics of poverty among PWD and also examine the Program of Advancement through Health and Education (PATH) and other cash transfer programs to determine its effectiveness in targeting persons with disabilities. The analysis will include, inter alia, an analysis of consumption data of sampled PATH household with disabled members to assist in determining the level of poverty of these households and ultimately provide the data for better means testing. The second study will be a qualitative assessment of the needs of persons with disabilities in poverty and determine whether the current safety net is appropriate.
- 2.11** Expected product. The report that provides a straight forward analysis of targeting systems used to identify PWD for social assistance with appropriate recommendations. Using the consumption data generated by the sample, analysis of PATH's BIS and means testing and recommendations on adjustments needed to better target PWD for PATH benefits.

Component 4 - Strengthening of Early Stimulation Program for children with disabilities

- 2.12** The objective of this component is to improve the quality of life for children with developmental disabilities through technical support and early intervention strategies.
- 2.13** The following activities are contemplated in this component: (i) Provide parents/NGOs/staff training workshops and public education on matters regarding disabilities, early intervention and rehabilitation for children with special needs; (ii) engage the services of a Speech and Occupational Therapist to train staff and parents in the rehabilitation of children with challenges in social skills and language development; and (iii) purchase educational materials, teaching and adaptive aids and developmental screening, and assessment tools to facilitate effective teaching methods targeting children with development disabilities.
- 2.14** Expected output. (i) Better execution of intervention strategies and better trained child development officers; (ii) greater access to the program and increase of enrollment; and (iii) improved coping skills and techniques of parents with children with disabilities and caregivers.

Component 5 - Institutional strengthening.

- 2.15** The objective of this component is to improve MLSS/JCPD's capacity to carry out its mandate to identify PWD, establish a proper registration system and provide rehabilitative assistance to those in need.
- 2.16** The objective will be achieved by: (i) Strengthening of management capacity to analyze and interpret the data that will be collected on an ongoing basis to support policy interventions for PWD; and (ii) strengthening of social worker networks in both rural and urban parishes in areas such as, counseling services and assessment skills in order to provide adequate services to PWD.
- 2.17** Expected output. Personnel road map that defines ongoing training needs for effective maintenance of the new data systems. Training program designed and conducted for the cadre of MLSS/JCPD social workers to improve their effectiveness in the field.

III. Total cost of the Program

- 3.01** The estimated total cost of the Program is seven hundred and thirty two thousand eight hundred dollars (US\$732,800), in accordance with the following categories and sources of financing:

IV. Execution

- 4.01** The Executing Agency (EA) of the Program will be the Ministry of Labor and Social Security (MLSS), through JCPD department.
- 4.02** The JCPD department, under the Directorship of the Director of Social Security of the EA, will have technical responsibility as well as responsibility for day to day administration including the fiduciary function. Successful execution of this Program will require broad support from several NGOs working in the field representing several PWD groups. These NGOs have sound knowledge of the sector and will be called upon to assist with identifying PWD in their respective communities. In this regard, a Technical Steering Committee (TSC) will be established to facilitate the active participation of the key stakeholders. The TSC will comprise representatives from the Jamaica Society for the Blind, Jamaica Association for the Deaf, Jamaica Association on Mental Retardation, Combined Disability Association, Early Stimulation Program (ESP), Statistical Institute of Jamaica (STATIN), Planning Institute of Jamaica (PIOJ), and MLSS. The TSC will be chaired by the EA who will be tasked with technical oversight responsibilities, monitoring quality and will meet quarterly to monitor results.
