☐ Sector  
☐ Geographic

## FINANCING PLAN

	Currency	Amount
INVESTMENT LOAN	USD	30,000,000.00
COUNTERPART:		
		Total: 30,000,000.00

## BANKS COUNTRY STRATEGY

The proposed Program is part of the country strategy of Nicaragua, especially in two strategic areas (i) Governance and (ii) Productivity of the poorest groups. It aims at improving the management of the largest water and sanitation utility, ENACAL, and to support the government efforts for improving health conditions. At the same time it has as an objective to comply with the millennium development goals in water and sanitation. (MDG objective. No.7)

## OBJECTIVES

The objective is to improve water and sanitation services provision through the optimization of ENACAL's operational and managerial systems and through systems rehabilitation in intermediate cities

## EXPECTED RESULTS

To improve performance indicators of ENACAL and the effective coverage ratio of the water and sanitation systems
