Impact Nbr. 2: Increase Agricultural Income

Observation: I2.1: The baseline number will be updated through surveys to be conducted prior to program implementation. The baseline and target values are obtained from the impact evaluation of the PT TA. The income increase corresponds to 58%. Targets apply to program beneficiaries. This includes only income from crop related agricultural activities (livestock is not included). I2.2: The baseline number will be updated through surveys to be conducted prior to program implementation. The baseline and target values are obtained from the impact evaluation of the PT TA. The profit increase corresponds to 63%. Targets apply to program beneficiaries. Profits correspond to the agricultural revenues minus the cost of variable inputs and transportation for crop activities.
