(f) Calculation of Interest Amount:

As soon as practicable and in accordance with the procedures specified herein, the Calculation Agent will determine the Reference Rate and calculate the amount of interest payable (the “Interest Amount”) with respect to the Aggregate Principal Amount for the relevant Interest Period.

The Interest Amount with respect to any Interest Period shall be a USD amount calculated on the relevant CLP Valuation Date (as defined below) as follows:

Interest Rate
multiplied by
{the number of days in the Interest Period/the number of days in the year}
multiplied by
Aggregate Principal Amount
divided by
Reference Rate

and rounding, if necessary, the entire resulting figure to the nearest 2 decimal places, with USD 0.005 being rounded upwards.

The interest payable with respect to any Authorized Denomination shall be calculated as follows:

Interest Amount
multiplied by
the principal amount of such Authorized Denomination
divided by
Aggregate Principal Amount

and rounding, if necessary, the entire resulting figure to the nearest 2 decimal places, with USD 0.005 being rounded downwards.

Where:

“Reference Rate” on the relevant CLP Valuation Date means the CLP/USD exchange rate, expressed as the amount of CLP per one USD, and determined by the Calculation Agent by reference to the applicable CLP DÓLAR OBS Rate on such CLP Valuable Date.

“CLP DÓLAR OBS Rate” on the relevant CLP Valuation Date means the CLP/USD “observado” rate, expressed as the amount of CLP per one USD, for settlement in one Relevant Business Day, reported by the Banco Central de Chile (www.bcentral.cl) as the “Dólar Observado” (Dollar Observado) rate by not later than 10:30 a.m., Santiago time, on such CLP Valuation Date, which rate appears on Reuters Page CLPOB= and Bloomberg Page PCRCDOOB Index (or such other page or service as may replace any such page for purposes of displaying the CLP DÓLAR OBS Rate); *provided, however*, that if the EMTA CLP Indicative Survey Rate (as defined below) is available on such date and the CLP DÓLAR OBS Rate shall differ by more than 3% from the EMTA CLP Indicative Survey Rate, then the Reference Rate will be the EMTA CLP Indicative Survey Rate applicable in respect of such CLP Valuation Date; and *provided further*, that if, on the applicable CLP Valuation Date, the Calculation Agent determines that an EMTA Failure (as defined below) has occurred on such date, the Reference Rate will be determined by the Calculation Agent in good faith and in a commercially reasonable manner, having taken into account relevant market practice.

In the event that the CLP DÓLAR OBS is not available on the relevant CLP Valuation Date, the Reference Rate shall be determined by the Calculation Agent by reference to the EMTA CLP Indicative Survey Rate applicable in respect of such CLP Valuation Date (if such rate is available).

“EMTA CLP Indicative Survey Rate” on the relevant CLP Valuation Date means the CLP/USD spot rate for USD, expressed as the amount of CLP per one USD, for settlement on the same day, as published on EMTA’s web site (www.emta.org) at approximately 11:00 a.m., Santiago time, or as soon thereafter as practicable, on such CLP Valuation Date. Such spot rate shall be calculated by EMTA (or a service provider EMTA may select in its sole discretion) pursuant to the EMTA CLP Indicative Survey Methodology (as defined below).

“EMTA CLP Indicative Survey Methodology” means a methodology, dated as of August 1, 2006, as amended from time to time, for a centralized industry-wide survey of financial institutions that are active participants in the CLP/USD markets for the purpose of determining the EMTA CLP Indicative Survey Rate.

“EMTA Failure” means, in respect of a CLP Valuation Date, that the EMTA CLP Indicative Survey Rate, having been requested as prescribed by EMTA, is not available for any reason. For the avoidance of doubt, an EMTA Failure may still occur notwithstanding that the CLP DÓLAR OBS Rate is available on the relevant CLP Valuation Date.

In the event that both CLP DÓLAR OBS and the EMTA CLP Indicative Survey Rate are unavailable on the applicable CLP Valuation Date, the Reference Rate shall be determined by the Calculation Agent on such date in good faith and in a commercially reasonable manner, having taken into account relevant market practice.

“CLP Valuation Date” is the date that is five (5) Santiago Business Days (as defined below) prior to any Fixed Rate Interest Payment Date or the Maturity Date or such other date on which an amount in respect of the Notes is payable; *provided, however*, that if such date is an Unscheduled Holiday, the CLP Valuation Date shall be the next preceding Santiago Business Day; and *provided further*, that if there is an Unscheduled Holiday between such CLP Valuation Date and such date of payment, there shall be no adjustment to such CLP Valuation Date on account thereof.

“Unscheduled Holiday” means a day that is not a Santiago Business Day and the market was not aware of such fact (by means of a public announcement or by reference to other publicly available information) until a time later than 9:00 a.m. local time in the principal financial center of the Specified Currency two Relevant Business Days prior to the relevant CLP Valuation Date.

“Santiago Business Day” means a day (other than a Saturday or a Sunday) on which the banks and foreign exchange markets are open for business in Santiago.

Aggregate Principal Amount
divided by
Reference Rate

and rounding, if necessary, the entire resulting figure to the nearest 2 decimal places, with USD 0.005 being rounded upwards.

The amount payable upon redemption with respect to any Authorized Denomination shall be calculated as follows:

Redemption Amount
multiplied by
the principal amount of such
Authorized Denomination
divided by
Aggregate Principal Amount

and rounding, if necessary, the entire resulting figure to the nearest 2 decimal places, with 0.005 being rounded downwards.

General Information

Additional Information regarding the Notes

1. The EU has adopted a Directive regarding the taxation of savings income (the “Savings Directive”). The Savings Directive requires Member States (as defined below) to provide to the tax authorities of other Member States details of payments of interest and other similar income paid by a person to an individual in another Member State, except that Austria and Luxembourg will instead impose a withholding system for a transitional period unless during such period they elect otherwise.

The Bank undertakes that it will ensure that it maintains a paying agent in a country which is a member of the European Union (a “Member State”) that will not be obliged to withhold or deduct tax pursuant to the Savings Directive.

2. United States Federal Income Tax Matters

A) United States Internal Revenue Service Circular 230 Notice: To ensure compliance with Internal Revenue Service Circular 230, prospective investors are hereby notified that: (a) any discussion of U.S. federal tax issues contained or referred to in this Pricing Supplement, the Prospectus or any other document referred to herein is not intended or written to be used, and cannot be used, by prospective investors for the purpose of avoiding penalties that may be imposed on them under the United States Internal Revenue Code; (b) such discussions are written for use in connection with the promotion or marketing of the transactions or matters addressed herein; and (c) prospective investors should seek advice based on their particular circumstances from an independent tax advisor.

B) The “Tax Matters” section of the Prospectus and any tax disclosure in this pricing supplement is of a general nature only, is not exhaustive of all possible tax considerations and is not intended to be, and should not be construed to be, legal, business or tax advice to any particular prospective investor. Each prospective investor should consult its own tax advisor as to the particular tax consequences to it of the acquisition, ownership, and disposition of the Notes, including the effects of applicable

U.S. federal, state, and local tax laws and non-U.S. tax laws and possible changes in tax laws.

C) Due to a change in law since the date of the Prospectus, the second paragraph of “—Payments of Interest” under the United States Holders section should be read as follows: “Interest paid by the Bank on the Notes constitutes income from sources outside the United States and will, depending on the circumstances, be “passive” or “general” income for purposes of computing the foreign tax credit.”

D) Due to a change in law since the date of the Prospectus, the fourth paragraph of “—Purchase, Sale and Retirement of the Notes” under the United States Holders section should be read as follows: “Capital gain of a noncorporate United States holder that is recognized in taxable years beginning before January 1, 2013 is generally taxed at a maximum rate of 15% where the holder has a holding period greater than one year.”

3. Additional Investment Considerations:

There are significant risks associated with the Notes including but not limited to exchange rate risk, price risk and liquidity risk. Investors should consult their own financial, legal, accounting and tax advisors about the risks associated with an investment in these Notes, the appropriate tools to analyze that investment, and the suitability of the investment in each investor’s particular circumstances.

The methodologies for determining the CLP foreign exchange rate may result in a Redemption Amount (or Early Redemption Amount, as the case may be) of the Notes, or an interest payment on the Notes, being significantly less than anticipated.
