(e) Initial Broken Amount:

A USD amount equal to:

IDR 766,712.33 per minimum Authorized Denomination, *divided by* the Applicable Rate (as defined below), calculated on the relevant Fixing Date (as defined below) in accordance with 13(g) below and payable on July 17, 2015

(f) Fixed Rate Day Count Fraction(s):

Actual/Actual ICMA

(g) Calculation of Interest Amount:

As soon as practicable and in accordance with the procedure specified herein, the Calculation Agent will determine the Applicable Rate (as defined below) and calculate the amount of interest payable (the “Interest Amount”) with respect to each Authorized Denomination for the relevant Interest Period.

The Interest Amount with respect to any Interest Period shall be a USD amount calculated on the relevant Fixing Date (as defined below) as follows:

$$\frac{7.25\% \text{ times minimum Authorized Denomination} \times \text{the Fixed Rate Day Count Fraction}}{\text{divided by the Applicable Rate}}$$

(and rounding, if necessary, the entire resulting figure to the nearest two decimal places, with

USD 0.005 being rounded upwards).

The “Applicable Rate” means the rate determined by the Calculation Agent that is equal to the USD/IDR spot rate at 11:00 a.m. Singapore time, expressed as the amount of IDR per one USD, for settlement in two IDR Business Days, reported on Reuters page JISDOR (or such other page or service as may replace any such page for the purposes of displaying the USD/IDR reference rate) at or around 11:00 a.m. Singapore time on the Fixing Date (such date, subject to adjustment as described below). Fallback Provisions apply as per below.

The “Fixing Date” means the date that is five IDR Business Days prior to the applicable Interest Payment Date or Maturity Date. The Fixing Date shall be subject to adjustment as follows: if the scheduled date of the Fixing Date is not a Relevant Business Day, then the Fixing Date will be the first preceding day that is a Relevant Business Day.

“IDR Business Day” means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in Singapore.

“Fallback Provisions”: Should no USD/IDR reference rate appear on Reuters page JISDOR (or on such replacement page as described above) on the Fixing Date, then the USD/IDR reference rate for such Fixing Date shall be determined by the Calculation Agent by requesting quotations for the mid USD/IDR spot foreign exchange rate either (i) at or about 11:00 a.m. Singapore time on the first day (other than a Saturday or a Sunday) following the Fixing Date (if such day is a Relevant Business Day) or (ii) if the first day (other than a Saturday or a Sunday) following the Fixing Date is not a Relevant Business Day, at or

about 11:00 a.m. Singapore time on the Fixing Date from five banks active in the USD/IDR currency and foreign exchange markets (such banks, the “Reference Banks”) as selected by the Calculation Agent.

If five or four quotations are provided as requested, the USD/IDR reference rate will be the arithmetic mean (rounded to the nearest whole Rupiah, 0.5 being rounded upwards) of the remaining three or two such quotations, as the case may be, for such rate provided by the Reference Banks, after disregarding the highest such quotation and the lowest such quotation (provided that, if two or more such quotations are the highest such quotations, then only one of such quotations shall be disregarded, and if one or more such quotations are the lowest quotations, then only one of such lowest quotations will be disregarded).

If only three or two such quotations are provided as requested, the USD/IDR reference rate shall be determined as described above except that the highest and lowest quotations will not be disregarded.

If only one or no such quotations are provided as requested, or if the Calculation Agent determines in its sole discretion that no suitable Reference Banks active in the USD/IDR currency or foreign exchange markets will provide quotes, the Calculation Agent shall be entitled to calculate the USD/IDR reference rate acting in good faith in a commercially reasonable manner, having taken into account relevant market practice, by reference to such additional sources as it deems appropriate; and in such case the Calculation Agent shall notify the Bank and the Global Agent as soon as reasonably practicable that the USD/IDR reference rate is

- to be so determined.
- (h) Calculation Agent: See “9. Identity of Calculation Agent” under “Other Relevant Terms”
- (i) Notification: If the Interest Amount payable on any Fixed Rate Interest Payment Date or the Redemption Amount, as the case may be, is calculated in any manner other than by utilizing the USD/IDR reference rate that appears on Reuters page JISDOR (or on such replacement page as described above), the Global Agent on behalf of the Bank shall give notice as soon as reasonably practicable to the Noteholders in accordance with Condition 14 (*Notices*).
14. Relevant Financial Center: Singapore, New York, London and Jakarta
15. Relevant Business Day: Singapore, New York, London and Jakarta
16. Redemption Amount (Condition 6(a)):
- The Redemption Amount with respect to each minimum Authorized Denomination will be a USD amount calculated by the Calculation Agent on the Fixing Date with respect to the Maturity Date as follows:
- minimum Authorized Denomination
divided by
the Applicable Rate
- (and rounding, if necessary, the entire resulting figure to the nearest 2 decimal places, with USD 0.005 being rounded upwards).
- Payment of the Redemption Amount will occur on the scheduled Maturity Date or, if later in the event of any such adjustment described above, on the date that is five Relevant Business Days in New York after the Fixing Date upon which the Applicable Rate is actually obtained, with no accrued interest payable in respect of any postponement described above.

17. Issuer's Optional Redemption (Condition 6(e)): No
18. Redemption at the Option of the Noteholders (Condition 6(f)): No
19. Early Redemption Amount (including accrued interest, if applicable) (Condition 9):
In the event the Notes become due and payable as provided in Condition 9 (Default), the Early Redemption Amount with respect to each Authorized Denomination will be a USD amount equal to the Redemption Amount that is determined in accordance with "16. Redemption Amount" plus accrued and unpaid interest, if any, as determined in accordance with "13. Fixed Interest Rate (Condition 5(I))"; provided, that for purposes of such determination, the "Fixing Date" shall be the date that is five IDR Business Days prior to the date upon which the Notes become due and payable as provided in Condition 9 (Default).

General Information

Additional Information regarding the Notes

1. The EU has adopted a Directive regarding the taxation of savings income (the “Savings Directive”). The Savings Directive requires Member States (as defined below) to provide to the tax authorities of other Member States details of payments of interest and other similar income paid by a person to an individual in another Member State, except that Austria and Luxembourg will instead impose a withholding system for a transitional period unless during such period they elect otherwise.

The Bank undertakes that it will ensure that it maintains a paying agent in a country which is a member of the European Union (a “Member State”) that will not be obliged to withhold or deduct tax pursuant to the Savings Directive.

2. United States Federal Income Tax Matters

The following supplements the discussion under the “Tax Matters” section of the Prospectus regarding the U.S. federal income tax treatment of the Notes, and is subject to the limitations and exceptions set forth therein. Any tax disclosure in the Prospectus or this pricing supplement is of a general nature only, is not exhaustive of all possible tax considerations and is not intended to be, and should not be construed to be, legal, business or

tax advice to any particular prospective investor. Each prospective investor should consult its own tax advisor as to the particular tax consequences to it of the acquisition, ownership, and disposition of the Notes, including the effects of applicable U.S. federal, state, and local tax laws and non-U.S. tax laws and possible changes in tax laws.

Due to a change in law since the date of the Prospectus, the second paragraph of “— Payments of Interest” under the United States Holders section should be read as follows: “Interest paid by the Bank on the Notes constitutes income from sources outside the United States and will, depending on the circumstances, be “passive” or “general” income for purposes of computing the foreign tax credit.”

Information with Respect to Foreign Financial Assets. Owners of “specified foreign financial assets” with an aggregate value in excess of \$50,000 (and in some circumstances, a higher threshold) may be required to file an information report with respect to such assets with their tax returns. “Specified foreign financial assets” may include financial accounts maintained by foreign financial institutions (which may include the Notes), as well as the following, but only if they are not held in accounts maintained by financial institutions: (i) stocks and securities issued by non-United States persons, (ii) financial instruments and contracts held for investment that have non-United States issuers or counterparties, and (iii) interests in foreign entities. Holders are urged to consult their tax advisors regarding the application of this reporting obligation to their ownership of the Notes.

Medicare Tax. A U.S. holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, will be subject to a 3.8% tax (the “Medicare tax”) on the lesser of (1) the U.S. holder’s “net investment income” for the relevant taxable year and (2) the excess of the U.S. holder’s modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals will be between \$125,000 and \$250,000, depending on the individual’s circumstances). A holder’s net investment income will generally include its gross interest income and its net gains from the disposition of Notes, unless such interest payments or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). If you are a U.S. holder that is an individual, estate or trust, you are urged to consult your tax advisors regarding the applicability of the Medicare tax to your income and gains in respect of your investment in the Notes.

3. Additional Investment Considerations:

The Notes offered by this Pricing Supplement are complex financial instruments and may not be suitable for certain investors. Investors intending to purchase the Notes should consult with their tax and financial advisors to ensure that the intended purchase meets the investment objective before making such purchase.

There are various risks associated with the Notes including, but not limited to, exchange rate risk, price risk and liquidity risk. Investors should consult with their own financial, legal and

accounting advisors about the risks associated with an investment in these Notes, the appropriate tools to analyze that investment, and the suitability of the investment in each investor's particular circumstances. Holders of the Notes should also consult with their professional tax advisors regarding tax laws applicable to them.

Payment of each Interest Amount and the Redemption Amount will be based on the Applicable Rate, which is a measure of the rate of exchange between the Indonesian Rupiah and the USD. Currency exchange rates are volatile and will affect the holder's return. In addition, the government of Indonesia can from time to time intervene in the foreign exchange market. These interventions or other governmental actions could adversely affect the value of the Notes, as well as the yield (in USD terms) on the Notes and the amount payable at maturity or upon acceleration. Even in the absence of governmental action directly affecting currency exchange rates, political or economic developments in Indonesia or elsewhere could lead to significant and sudden changes in the exchange rate between the Indonesian Rupiah and the USD.

The Indonesian Rupiah is an emerging market currency. Emerging market currencies may be subject to particularly substantial volatility, as well as to government actions including currency controls, devaluations and other matters which could materially and adversely affect the value of the Notes.

The methodologies for determining the Applicable Rate may result in a Redemption Amount (or Early Redemption Amount, as the case may be) of the Notes, or an Interest Amount on the Notes, being significantly less than anticipated or less than what an alternative methodology for determining the IDR-USD exchange rate would yield.
