Recent Developments

On March 22, 2010, the Bank’s Board of Governors agreed to take steps necessary to implement an increase of its ordinary capital resources in the amount of \$70 billion that would be subscribed to by Bank members over a five-year period. Of this amount, \$1.7 billion would be in the form of paid-in capital and the remainder would represent callable capital. Additionally, and in an effort to assure the Bank’s continued support for Haiti’s reconstruction and development, the Board of Governors agreed, in principle, to provide \$200 million annually in transfers of ordinary capital income, through 2020, to the IDB Grant Facility for Haiti. Such transfers would be subject to the annual approval of the Board of Governors. The Board of Governors has directed the Bank’s Board of Executive Directors and Senior Management to prepare the technical document and required legal instruments for submission to the Board of Governors, within 60 days of such date, in order to proceed with voting by Bank members.

General Information

Additional Information Regarding the Notes

1. The EU has adopted a Directive regarding the taxation of savings income (the “Savings Directive”). The Savings Directive requires Member States (as defined below) to provide to the tax authorities of other Member States details of payments of interest and other similar income paid by a person to an individual in another Member State,

except that Austria and Luxembourg will instead impose a withholding system for a transitional period unless during such period they elect otherwise.

The Bank undertakes that it will ensure that it maintains a paying agent in a country which is a member of the European Union (a “Member State”) that will not be obliged to withhold or deduct tax pursuant to the Savings Directive.

2. United States Tax Matters

Due to changes in law, the following updates to the information presented in the “Tax Matters” section of the Prospectus are applicable:

A) United States Internal Revenue Service Circular 230 Notice: To ensure compliance with Internal Revenue Service Circular 230, prospective investors are hereby notified that: (a) any discussion of U.S. federal tax issues contained or referred to in this Pricing Supplement, the Prospectus or any other document referred to herein is not intended or written to be used, and cannot be used, by prospective investors for the purpose of avoiding penalties that may be imposed on them under the United States Internal Revenue Code; (b) such discussions are written for use in connection with the promotion or marketing of the transactions or matters addressed herein; and (c) prospective investors should seek advice based on their particular circumstances from an independent tax advisor.

B) The “Tax Matters” section in the Prospectus and any tax disclosure in this Pricing Supplement is of a general nature only, is not exhaustive of all possible tax considerations and is not intended to be, and should not be construed to be, legal, business or tax advice to any particular prospective investor. Each prospective investor should consult its own tax advisor as to the particular tax consequences to it of the acquisition, ownership, and disposition of the Notes, including the effects of applicable U.S. federal, state, and local tax laws and non-U.S. tax laws and possible changes in tax laws.

C) Due to a change in law since the date of the Prospectus, the second paragraph of “—Payments of Interest” under the United States Holders section should be read as follows: “Interest paid by the Bank on the Notes constitutes income from sources outside the United States and will, depending on your circumstances, be “passive” or “general” income for purposes of computing the foreign tax credit.”

D) Due to a change in law since the date of the Prospectus, the fourth paragraph of “—Purchase, Sale and Retirement of the Notes” under the United States Holders section should be read as follows: “Capital gain of a noncorporate United States holder that is recognized in taxable years beginning before January 1, 2011 is generally taxed at a maximum rate of 15% where the holder has a holding period greater than one year.”
