CRITICAL ISSUES THAT HAVE AFFECTED PERFORMANCE

[X] Others, which?: Commercial Banks despite commitment from senior executives have not actively utilized the SME rating tool

SECTION 4: RISKS**MOST IMPORTANT RISKS AFFECTING FUTURE PERFORMANCE**

	Level	Mitigation action	Responsible
1. Sector Risk: Although banks utilize credit ratings in their credit assessments, this may not lead to an increase in bank financing for SMEs.	Low	Identify alternative financing options for SMEs outside of current banker	Project Guest
2. Sustainability Risk: The business viability of CariCRIS should be monitored. Its sustainability as a business depends on increasing revenues from its current target audience, including SMEs, as well as expanding its rating services to include non-bank financial institutions	Low	Executing Agency to identify other revenue streams outside of the current SME sector and the region	Project Guest
3. A deterioration in economic conditions may weaken business profitability and negatively affect employment and sales.	Low	Monitor economic climate and adapt project activities if needed	Project Guest
4. Sector Risk: There may not be sufficient SME demand to conduct 60 ratings despite the co-payment supplied by the project.	Low	EA to partner with other agencies that work with SMEs to identify potential participants	Project Guest

CRITICAL ISSUES THAT MAY AFFECT PROJECT SUSTAINABILITY

[None reported in this period]

Actions related to sustainability which have been taken in the reporting period:

Despite a provision of a 50% subsidy to offset the cost of the SME rating, there was little uptake by the SME sector which challenged the ability of CariCRIS to achieve the original milestones, inclusive of a final credit rating of 60 SMEs. Therefore, several amendments were made to the project during the semester: (1) The subsidy was reduced from 50% to 25% to facilitate the following: (1) (a) widening the target clientele by modifying the SME rating methodology to be licensed to smaller financial institutions outside of the current commercial partners, (1) (b) offering the rating to corporations that may wish to assess the credit worthiness of their suppliers, (1) (c) enhancing CariCRIS capacity to engage in credit risk analysis of insurance companies and other non-bank financial institutions given current regulatory weaknesses and the necessity to comply with international banking standards, and (2) The savings of US \$40,000 from the reduction in the subsidy will be utilized to finance the activities in (1).
